Introduction

The Statistical Profile, North Carolina Public Schools is a general summary of quantitative data descriptive of North Carolina's educational system. This is the ninth edition of the publication initiated in 1975.

The major purpose of this publication is to provide general statistical information to the public, professional educators, and the General Assembly. This profile provides information on pupils, public school finances, instructional and non-instructional personnel, and other public school data in statewide summary and by local education agency.

This publication would not be possible without the full support and dedicated efforts of public school administrators, principals, and teachers. Their patience and untiring efforts in making this information available is gratefully acknowledged.

Part I. State Summary

PUPIL INFORMATION

Pupil information collected by the Department of Public Education ranges from the basic monthly pupil accounting data to the biennial reports that monitor federal legislation. Pupil data forms the core of the data bank used in decision-making, planning, allocation of funds, and evaluation. Following are descriptions and tables of selected information on pupils:

Pupil Accounting

Pupil accounting data are some of the most useful and valuable information available to educators and administrators on the local and state level and to the public in general. The basic pupil accounting form used in North Carolina is the Principal's Monthly Report; there are nine reporting periods of twenty school days each. From this report enrollment (ENROLL), average daily membership (ADM), and average daily attendance (ADA) are calculated monthly. On the ninth month report membership-last-day (MLD), promotions (PROM), and non-promotions (N-P) are derived. Tables 1-6 give a history of these pupil accounting data by grade; the pupil accounting terms are defined below:

Enrollment: Enrollment represents a pupil's first admission in a public school in the state this school year. Included in enrollment are those students transferring to the North Carolina public school system from another state as well as non-public school students entering the public schools. Enrollment never decreases throughout the academic year because it is not reduced as a result of transfers within the state, withdrawals, student deaths, or midyear graduations. Once a pupil is initially counted in enrollment in a school, he remains in enrollment throughout the school year; therefore, by the year's end enrollments show a higher count than the actual number of students who remain in membership.

Average Daily Membership: In any school term, the total number of school days that a student's name is on the current roll of a class, regardless of his being present or absent, is the "number of days in membership" for that student. The sum of the number of days in membership for all students divided by the number of school days in the term yields ADM. The final average daily membership is the aggregate of the total days in membership of all students for the nine school months divided by the number of days school was in session during the academic year.

Average Daily Attendance: The number of days a student is present and under the guidance and direction of one or more teachers while school is in session during a period is the "number of days of attendance" for that student. The total number of days of attendance for all students divided by the total number of school days in a given period gives the average daily attendance (ADA).

Membership Last Day: Membership Last Day refers to the number of students remaining in membership as of the last day of school for the academic year. Students who are in membership last day are either advanced to the next grade (promoted) for the coming school year or retained in the same grade (non-promotions) for the succeeding school year.

The student population of a state or a local school system is primarily determined by the number of residential live births, the amount of in- and out-migration, non-promotion patterns, and the number of school dropouts. Even though North Carolina experienced a net in-migration in the seventies, due to the decreased residential live births, the school population has been declining steadily since 1968-69. The rate of decline in school population, however, will slow down in the early eighties because of the stabilization in birth counts of the last few years. If the slight increases in live births of 1978-80 is any indication of a new trend, the decrease in student population might bottom out in the mid-eighties.

Non-Promotion Rate by Grade

Statewide non-promotion rates over a five-year period are presented in Table 7 below. The non-promotion rates for local education agencies can be calculated by dividing the non-promotion (N-P) by the membership last day (MLD); these figures are printed for each LEA in Section II of this publication. Please note that if you compute the rate for LEA's, the figures will include extended day memberships for grades 9-12 although the statewide rates given below do not.

The beginning grades of elementary, junior high, and high schools show clear evidence of being the most troublesome to pupils. Overall, the highest non-promotion rates occur at the first, ninth, and tenth grades.

Since promotion policies vary among local education agencies, care should be exercised in making comparisons of non-promotion rates, particularly at the secondary level. Many secondary schools require the completion of a fixed number of Carnegie units or of a required curriculum to advance to the next grade level. In many cases, non-promotion of a grade in high school may indicate the failure of a single course rather than the entire or overall course load for that grade level.

Table 7

NON-PROMOTION RATE BY GRADE*

Year	K	1	2	3	4	5	6	7	8	9	10	11	12	Total
1977-78	3.0	9.4	5.5	4.2	3.1	2.7	2.9	6.1	6.2	12.6	15.3	9.3	4.3	6.7

1981-82	4.5	9.4	5.1	3.5	2.6	2.1	2.3	6.0	5.8	12.3	12.8	7.8	3.6	6.0
Average	4.2	9.7	5.8	4.3	3.2	2.8	3.0	6.5	6.6	12.9	14.0	8.5	3.9	6.6

* *Extended day student memberships are not included in the non-promotion rates. Exceptional pupil memberships are included only in the total non-promotion rate.*

Projected Final Average Daily Membership

The method used in the projection of school final average daily membership is known as the Cohort Survival or grade persistence method. With this method, residential births and grade membership are used to calculate the grade survival ratios. In an effort to obtain stable ratios, a period of five years of historical data is used. The projected information has proven valuable to all phases of school planning both at the state and local levels. The projected final ADM (total only) for each LEA is given in Table 8.

	K	1	2	3	4	5	6	7	8	EXCP	TMH	9	10	11	12	TOTAL

Exceptional Pupils

Information on the numbers of exceptional students identified and served by primary handicapping classification as of December 1 is a part of the Equal Education Opportunities Plan submitted to the Division for Exceptional Children each year. The figures in Table 9 represent an unduplicated count of students (ages 0-21) who have an Individual Education Plan (IEP) required for counting and who are eligible for federal (Title VI-B) and state funds.

Pupil Membership by Race/Ethnic Origin

Information on pupils in membership by their race/ethnic origin is collected by the Department of Public Education for the Office for Civil Rights of the United States Department of Education biennially. During non-survey years, the same data is collected by the Department of Public Education. Maintaining this information annually is required to ensure compliance with Title VI of the Civil Rights Act of 1964 and Title IV of the Education Amendments of 1972. School membership is reported by race/ethnic origin as of the end of the first school month. These figures should not be confused with average daily membership.

Table 10 is a summary of the pupils in membership for 1982-83 by race and sex for each LEA and state totals.

High School Graduates

1982 High School Graduate Intentions

Each year in July, the Department of Public Education, with the assistance of high school principals and guidance counselors, collects and tabulates data from each of the local education agencies on the intentions of current graduates and previous year summer school graduates. Intentions of the graduates are reported for the following categories:

- Enrolling in senior institutions (public and private)
- Enrolling in community colleges and technical institutes
- Enrolling in junior colleges
- Enrolling in trade, business and nursing schools
- Enlisting in military service
- Seeking employment
- No information

The table on page I-21 is the state summary of 1982 graduates' intentions. Following the table on the 1982 graduates' intentions is a table of a five-year history of graduating classes. High school graduates' intentions listed by LEA is included in Part II of this publication.

Estimated Annual High School Dropout Rates

An estimated 7.3% of North Carolina's high school pupils (or approximately 24,845 students) dropped out of school during the 1981-82 school year. The figures are estimated from information supplied to the Department of Public Education by local school principals throughout the state. Because a significant number of students drop out during the summer months when school is not in session, the annual dropout rate must be estimated. Precise dropout statistics require an individual follow-up of students leaving school prior to graduation to determine their educational status. While some high schools conduct such follow-up studies, the vast majority do not.

The preliminary estimates of the number of high school dropouts is arrived at as the difference between the size of the graduating class when they were in the ninth grade and their class size upon graduation. The final estimates are obtained by allowing for the average annual combined effect of in-and-out migration, public and private school transfers, changes in non-promotion patterns, and student deaths.

Retention rates express the number of students who graduated this year as a percent of the total number of ninth graders in the class four years ago. The final estimates of retention rates make allowances for the factors stated above for dropout rates.

The statistical techniques used to calculate the estimated annual high school dropout rates have been refined through the years, and we are confident that the published figures closely approximate the actual rates based upon the best information available to us prior to publication. A more detailed explanation of the statistical formulas used in computing the estimated dropout rates is available from the Division of Statistical Services upon request.

Care should be taken in comparing North Carolina's estimated annual high school dropout rate to those of other states. Wide variations exist among the states in the methods used to calculate dropout rates, and any comparison to other states should be made only with a full and complete understanding of the statistical methods used to arrive at the published rates.

To calculate the extended day program dropout rate, the actual number of dropouts were divided by the actual headcounts in the program. These figures have <u>not</u> been included with the regular high school dropouts.

Projections of High School Graduates

A ten-year projection of the number of high school graduates of local public school systems is presented in the following table. The projections are updated annually in the fall. The information has proven valuable to all of the post-secondary institutions.

The future of the number of high school graduates may be different from one local public school system to another, dictated by the residential birth count; in- and out-migrations, promotions, and school dropout patterns. For the state as a whole, the total number of high school graduates will decline for the next four years. Then there will be a short period of upturn in the following three years because of the relatively large live birth count in 1969-71. The downward trend will resume again in 1990.

NORTH CAROLINA PUBLIC SCHOOL PERSONNEL

Public school personnel information presented in this publication comes from several different sources: the Public School System Full-Time Personnel Report, the Professional Personnel Budget (408), the certification files, and the Professional Personnel Activity Report file. Following is a detailed description of the information sources and data gathered from them.

North Carolina Public School Personnel Summary

The table on page I-32 is a summary of all full-time personnel employed as of November 1, 1982, at the school and central office level as reported on the Public School Full-Time Personnel Report. This report collects data on full-time personnel by activity assignment, sex, race, and source of funds. Definition of activity assignment classifications are given on Page II.2.

Experience Status of Instructional Personnel

The experience status of instructional personnel is collected annually on the Professional Personnel Activity Report; this report is completed by all school-level professional personnel and any central office personnel who have instructional duties. The information presented in Table 17 by local education agency and state totals is a summary of the experience status of all full- and part-time principals, assistant principals, guidance counselors, librarians, and classroom teachers.

Highest Degree Held by Professional Personnel

The information presented in Table 18 is for all certificated professional personnel who are employed this year (full- or part-time) at the school and central office level. Please note that it is the highest degree held that is reported here; this is not necessarily the degree on which one's pay is based. The information in this table comes from the teacher certification files.

* Teachers are counted once in each subject area he/she teaches.
** Block is two or more courses taught during a time period that usually exceeds one hour.

Teacher Profile

Table 19 is a profile of teachers by subject area who are teaching courses in grades seven through twelve as reported on the Professional Personnel Activity Report in the fall of 1982. The information is presented by subject area and sex; please note that a teacher is counted once in each subject area in which he or she teaches.

Columns B and F are row percentages; these percentages express the fraction of teachers that are male or female teaching in a particular subject area. For example, of the 8,675 people teaching an English course, 84.9% (7,369) are female and 15.1% (1,306) are male.

Entries of Column C show the fraction of all female teachers teaching in a given subject area. Similarly Column G gives the fraction for male teachers. For example, 29.3% (7,369) of the 25,133 female teachers are teaching English.

The entries of Column D show the fraction of all teachers who are female and teaching a given subject area. Similar percentages for male teachers are in Column H. For instance, 18.6% (7,369) of all teachers (39,594) are female English teachers.

Selected Characteristics of Public School Staff

The information on Selected Characteristics of Public School Staff in Table 20 has been compiled from the Professional Personnel Budget (408) and teacher certification files for the 1982-83 school year. The percentages and ranks that have been computed are based on full-time-equivalents of employment.

For the characteristics of classroom teachers that have been ranked, classroom teachers include all teachers, guidance counselors, and librarians. The percent rankings of those classroom teachers with a graduate degree include all who hold a degree higher than a bachelor's degree. The percent and rankings of classroom teachers with no prior experience includes all who are teaching this year for the first time.

The third category of information is the percent and ranking of professional staff paid entirely from local funds. This information is based on the full-time-equivalents of all professional personnel employed at the central office or school level and who are paid entirely from local funds.

FINANCIAL INFORMATION

Information in this section includes current expense expenditures by source of funds and statistics on public school transportation. The current expense expenditures are obtained from the Annual Financial Report submitted by local superintendents at the close of each fiscal year. The Financial Report is not an audit, but is an accurate accounting of revenues and expenditures by each local education agency for the preceding fiscal year. Data on transportation was obtained from the Division of Transportation.

Current Expense Expenditures, 1981-82

Current expense expenditures by source of funds are calculated annually by the Department of Public Education as a guide for local school administrators, legislators, and the general public. Current expenditures include all disbursements necessary for the daily operation of the 143 local education agencies in 1981-82. Capital expenditures for new buildings and grounds, existing building renovations, and miscellaneous equipment purchases are excluded, as are community services programs and inter/intra fund transfers. By legislative mandate, long-term debts of school systems (debt service) are now a part of the county budget and controlled by the commissioners of the 100 counties and, therefore, are not reported on the Financial Report. Current expenditures are shown for public kindergarten, elementary, secondary, and special schools for exceptional children. The Governor Morehead School for the Blind, the North Carolina Schools for the Deaf, the Fort Bragg and Camp Lejeune military base schools, and the Cherokee Indian reservation schools are not included.

Data contained in the current expense expenditures were obtained from the 1981-82 Annual Financial Reports submitted by the superintendents of the 143 LEA's following the close of the fiscal year on June 30, 1982. In addition, the monies appropriated by the state (State Public School Fund) and the actual value of textbooks shipped to the LEA's were included in the calculations. As the State Public School Fund money for transportation is allotted by county, it has been necessary to prorate a portion to city LEA's based on actual mileage. Items reported on the Annual Financial Report, but excluded from computation of per pupil expenditures are Adult Education, Community Services, Transfers and Refunds, and capital outlays.

The total 1981-82 expenditure for current operating expenses of the public school system in North Carolina was $2,243,753,607. Of this amount, $1,464,442,877 or 65.2 percent was provided by the state; $232,601,637 or 10.4 percent came from federal funds; $546,709,094 or 24.4 percent was provided by local governments. Salaries and employee fringe benefits represented 82.2 percent of total current expense expenditures. They also accounted for 91.8 percent of state expenditures, 70.1 percent of federal expenditures, and 61.81 percent of local expenditures. Expenditures per pupil in final average daily membership was $1,327.74 from state funds, $210.88 from federal funds, and $495.69 from local funds. The per pupil expenditures and rank by source of funds and total are given from each LEA in Table 24.

Explanations and Definitions

Through a combined effort of the State Board of Education and the Local Government Commission, a uniform chart of accounts was created for use by all LEA's in reporting revenues and expenditures for school operations. Thirteen LEA's voluntarily participated in a pilot program to test the newly formulated chart of accounts during the 1976-77 fiscal year. All LEA's were required to utilize the uniform chart of accounts for fiscal 1977-78. The adoption and implementation of this uniform chart of accounts necessitated several format changes in reporting the financial information in the Statistical Profile, North Carolina Public Schools. Although identical in appearance to preceding years, the content of the various tables and charts have changed drastically with the 1977-78 data. The old categories of administration, instructional service, operation of plant, maintenance of plant, fixed charges and auxiliary service have been replaced by salaries, employee benefits, purchased services, supplies and materials, instructional equipment, and other objects.

The method of calculating the per pupil expenditure has also been slightly modified. Revenues and expenditures for the sale of breakfast and lunch to students and adults are now included. These sales are shown as local monies in both revenue and expenditure. Prior to 1977-78, all per pupil calculations were based on average daily attendance. Average daily membership has since been used to calculate per pupil expenditures because most state funds are allocated on this basis and the majority of costs are incurred whether or not a student is in attendance. The net effect of this change will be a decrease in the per pupil expenditure but will more accurately reflect the actual cost of educating an individual student. Tables and charts presenting data for prior years have been recalculated using average daily membership to make comparisons comparable.

Category I Projects: Acquisition of real property and construction, acquisition, reconstruction, enlargement, renovation or replacement of buildings and other structures.

Category II Projects: Acquisition or replacement of furnishings and equipment.

Category III Projects: Acquisition of activity buses, school buses as new additions to the fleet, and other motor vehicles.

Local Revenue and Expenditure for Education, 1980-81

The table on page I-63 is compiled by the Division of School Planning using information provided to them from several different sources. This table includes the final average daily membership, local revenue resources, and local expenditures for each county. The final ADM has been divided into these figures to get the per pupil amount of local resources and the per pupil amount of expenditures. The expenditures as a percent of total resources has also been calculated. Sources for the data in this table are the "Annual County Financial Information for the Fiscal Year Ending June 30, 1981," filed with the North Carolina Department of State Treasurer, State and Local Government Finance Division; Public Law 874 funds, provided by the North Carolina Department of Public Instruction, Office of Federal Relations; and local current expense for schools, from the "1980-81 Annual Financial Report" completed by the local education agencies and filed with the Division of Statistical Services of the Controller's Office, State Board of Education.

For 1981 new sources of data permitted a more inclusive list of local resources available to county governments. Therefore, what appears to be a decline in the expenditure as a percent of local resources going to public schools may be the result of the change in the local resources being included this year for the first time. Previous years data printed in the Statistical Profile are not comparable to this year's data because of the new information available on local resources.

NOTE: The per capita income figures are calculated and periodically revised by the Bureau of Economic Analysis of the U. S. Department of Commerce, using the estimates of the civilian population and personal income. The income figure represents income received from all sources and is measured before deduction of income and other personal taxes but after deductions for Social Security, government retirement, and other social insurance. It can include wages, proprietor income, rental income, dividends, interest, and government and business transfer payments. Other non-money transfers are also included such as food stamps, health benefits, and subsidized housing or other non-money income. The total personal income for a county is divided by the estimated population of the county to produce per capita income.

Transportation

Pupil transportation information is compiled from the State Public School Fund and the Division of Transportation records. In counties that contain more than one school unit, the share of county and city transportation costs are estimated by prorating costs in proportion to the total bus miles logged by each unit. The items such as contract transportation that are allocated directly to each unit are excluded from the proration.

School Buses

- 12,715 school buses were in operation this school year
- 20,048 trips were made each school day (one way)

Pupils Transported

- 733,019 pupils were transported to and from school each day
- 725,120 pupils were transported by school bus
- 66.5 percent of the total public school ADA was transported to school
- 73 percent of all transported pupils were of the elementary school level; 27 percent high school level
- 57 pupils were transported by the average bus each day

Miles

- Total annual mileage for all buses was 106,750,441
- Buses traveled 593,051 miles daily
- The average bus traveled 8,393 miles for the year; 46.6 miles each day; 14.8 miles per trip (one way)

Cost of School Transportation

- The total cost of school transportation was $94,201,821 including contract transportation and replacement buses
- The total cost of contract transportation was $3,141,738
- The total cost of state operated vehicles including bus replacements was $91,060,083
- The average cost of transportation by school bus including bus replacements was:

  $7,161.63 per bus for the school year
  $39.79 per bus per day
  $125.58 per pupil for the school year
  $0.6977 per pupil per day
  $0.8530 per bus mile of operation

COURSE MEMBERSHIP SUMMARY

The following information on course membership is derived from the Professional Personnel Activity Reports completed at the end of the first school month by all school level professional personnel and central office staff with student contact. The number of classes and course membership listed below are reported for grades seven through twelve only from teachers schedules reported on the Professional Personnel Activity Reports.

Table 31

Part II. Local Education Agencies

DEFINITIONS OF TERMINOLOGY USED IN STATISTICAL TABLES PRESENTED BY LOCAL EDUCATION AGENCIES

NOTE: This guide has been included for use as a quick explanation of the sources and time frame of the information presented in this publication by local education agencies. Please read the guide carefully before proceeding in order to avoid misinterpretation of the data.

Enrollment: (ENROLL) Final enrollment for 1981-82 and first month enrollment for 1982-83 are presented. This information comes from the Principal's Monthly Report completed by each school in each local education agency. Caution must be taken not to compare the final enrollment to the first school month enrollment as enrollment only increases during the school year. Exceptional pupils (EXCP) reported are only those special students served in self-contained classrooms. Trainable mentally handicapped students are included in a separate column. (See page I-1 for a definition of enrollment.)

Average Daily Membership: (ADM) Average daily membership is included for the 1981-82 final average and for the first month of 1982-83. These data are also computed from the Principal's Monthly Report. Average daily membership is a more realistic figure than enrollment for general reference to pupils in school; average daily membership is used to compute the per pupil expenditure of current expense expenditures. Exceptional pupils (EXCP) reported are only those special students served in self-contained classrooms. Trainable mentally handicapped students (TMH) are included separately. (See page I-1 for a definition of average daily membership.)

Average Daily Attendance: (ADA) Average daily attendance is included for each LEA for the final 1981-82 average and for the first month of 1982-83 and is also computed from the Principal's Montly Report. Average daily attendance is an average of the number of students actually in attendance during the school year (final) or during a school month. Exceptional pupils (EXCP) reported are only those special students served in self-contained classrooms. Trainable mentally handicapped students (TMH) are included separately. (See page I-2 for a definition of average daily attendance.)

Membership Last Day: (MLD) Membership last day is presented for the last day of the school year for 1981-82 and is a count of the number of students actually in membership on the last school day of the year. Using membership last day, promotions can be derived by subtracting non-promotions. Membership last day is reported on the Principal's Ninth Month Report.

Promotions and Non-Promotions: (PROM) Promotions and (NP) Non-Promotions are counted on the last day of the school year. Non-promotions by grade show where the majority of retentions occur. Note, however, that non-promotion policies vary from one LEA to another. Non-promotions are reported on the Principal's Ninth Month Report; non-promotions subtracted from membership last day gives promotions.

High School Graduate Intentions: A table of the post-graduate intentions of high school graudates by sex and race is presented for each LEA. This information is collected in July of each year from high school principals and guidance counselors on the Public School Annual Report. This data is useful in determining the overall trend of post-graduate activities of North Carolina public school graduates. It is used frequently by community colleges and other schools and universities for recruiting purposes.

Current Expense Expenditures by Source of Funds: Current expense expenditures by source of funds for 1981-82 is based on the Annual Financial Report completed by each local education agency (LEA) in August after the close of the preceding fiscal year. From this report, current expense expenditures are given by source of funds and on a per pupil basis using average daily membership.

Public School Personnel Summary: The table on public school personnel includes only full-time personnel employed by each of the local education agencies. The information by source of funds, sex and race was reported this year on the Public School Full-Time Personnel Report; this report is our only source of all personnel -- both instructional and non-instructional. The following definitions of activity assignments classifications are shown as they are listed on the Public School Full-Time Personnel Report:

Officials, Administrators, and Managers - Persons who set broad policies, exercise overall responsibility for execution of these policies, or direct school operations of the school system -- superintendent; deputy, associate, and assistant superintendents; school business officials; directors and administrators of district-wide programs, and other professional administrative staff.

Other Teachers - Teachers who teach ungraded classes, special education, art, music, band, physical education, home economics, etc., who have not been reported as elementary or secondary teachers.

Guidance - Student counselors and other guidance personnel.

Psychological - Include psychologists, psychometrists, psychiatrists, and psychological-social workers.

Librarians and Audio-Visual Staff - Staff members who are responsible for school libraries, and staff members who are responsible for preparing, caring for, and making available to instructional programs, the equipment, materials, scripts, and other aids which assist teaching through the senses of sight and hearing.

Consultants and Supervisors of Instruction - Staff members who provide leadership and expertise in the field of specialization for the purpose of improving the performance of teachers and other instructional staff.

Other Professional Staff - Include persons who cannot be properly included in other professional categories such as non-classroom teachers, dentists, speech therapists, school social workers, community workers, attendance officers, attorneys, architects, engineers, registered nurses, and other non-instructional staff.

Technicians - Include computer programmers and operators, film inspectors, projectionists, graphic artists, drafters, engineering aides, licensed, practical or vocational nurses, dietitians, photographers, radio operators, scientific assistants, technical illustrators, and other technicians.

Clerical/Secretarial - Include secretaries, bookkeepers, messengers, office-machine operators, clerk-typists, stenographers, court transcribers, hearing reporters, statistical clerks, dispatchers, license distributors, payroll clerks, and kindred workers.

Service Workers - Paraprofessionals and persons in cafeteria maintenance, transportation, custodial workers and other maintenance crew, security guards, etc.

Skilled Crafts - Include mechanics, repairers, electricians, heavy equipment operators, stationary engineers, skilled machine operators, carpenters, compositors and typesetters and kindred workers.

Laborers - Persons who perform manual labor such as garage laborers, car washers, greasers, gardeners, and groundskeepers.
